## HARD SKILLS

C++, Java , Bash, Python	Cybersecurity
Cloud Security	Cloud Management
Windows, Linux, UNIX	TCP/IP, DHCP, VLAN, firewall
Penetration Testing	MySQL, PostgreSQL
Computer Networking & security	Cryptography

## SOFT SKILLS

- Involvement
- Autonomous
- proactive
- communication skills

## LANGUAGES

- English – Bilingual Proficiency
- French – Limited Working Proficiency
- Tamil – Native

## HOBBIES

- TryHackMe
- RootMe
- HackTheBox
- VulnerableHub

## CERTIFICATION

- IT and Cybersecurity Risk Management Essential Training
- Networking Foundations: Networking Basics
- Cisco CCNA (200-301) Cert Prep: 1 Network Fundamentals and Access
- Ethical Hacking: Introduction to Ethical Hacking
